## FREQUENTLY ASKED QUESTIONS

What documents are required for air shipments?

1. Commercial Invoice: Details of the value & contents.
2. Air Waybill (AWB): issued by the carrier for tracking and identification.
3. Packing List: Itemized details of the shipment's contents, quantities, and packaging.
4. Power of Attorney (POA)

How do I track my air shipment's arrival once it's in transit?

Once your shipment is airborne, tracking updates are provided by the airline or your freight forwarder. Please forwards any documentation to us.

What if my shipment has special customs requirements, i.e. EPA filings for vehicles?

EMD handles special customs filings like EPA 3520-1 and HS7, and any other necessary documentation for specific goods, i.e. vehicles, trailers & regulated imports.

Does EMD help with shipping?

Whether you handle the shipping with your manufacturer or prefer us to assist, we ensure a smooth process from port to door. Let us know your shipping arrangements, and we'll take it from there.

What is a POA (Power of Attorney), and what is it for?

A POA is required a document by U.S. Customs & Border Protection (CBP) for EMD to act on your behalf for customs clearance. This allows us to file necessary customs documents and ensure smooth import.
